CONTAINER FOR THE DRAINING AND RECOVERY OF WASTE ENGINE OIL FROM CARS, MOTORCYCLES AND MOTORISED EQUIPMENT

ECOTANICA® and ECOTANICA® 2000 are purpose designed containers with suitable capacities to drain and recover waste engine oil from motorised equipment including cars, boats and motorcycle engines. Designed for enthusiasts who prefer DIY, the ECOTANICA® 6 and 10 litre series allow an oil change to be made in total respect for environmental safety.

CONTAINER FOR THE DRAINING AND RECOVERY OF WASTE ENGINE OIL FROM CARS, MOTORCYCLES AND MOTORISED EQUIPMENT

ECOTANICA® SMART is the latest in car and motorcycle waste engine oil collection containers. Available in 6 litre and 10 litre versions, this model features a small removable filter set into the oil filling aperture. The filter takes out any bits or dirt in the used engine oil. The container is available in standard colours: green or black with yellow or red caps. Customised colours are available on request.

The practical sizes used for both car and motorcycle engines

The large central pool area on top guarantees safe easy collection

Secure and easy to transport to dedicated oil collection points

Safe and easy oil change

Easy to carry even when full

Equipped with special filter

TANK FOR DRAINAGE & CONTAINMENT OF WASTE MINERAL OIL FROM CAR & MOTORCYCLE ENGINES

For those wanting the very best, NEW ECOTANICA® PLUS is the most complete eco-friendly collection container available. Designed not only for collecting used oil, it has accessories for filling engines with new oil. This version has an especially large wide funnel for safe and simple oil collection. The funnel can be swivelled to different positions over the container, to make it as easy as possible to change the oil of any vehicle, in any situation. NEW ECOTANICA® PLUS is also fitted with special underside Velcro strips, to prevent the container from sliding around in the trunk of a car, allowing easy and hassle-free transport of the oil to a collection station. The container is available in green or black color, with yellow accessories.

Options: Adhesive vinyls, imprinting area for customers' logo.

EMERGENCY WASTE ENGINE OIL COLLECTION CONTAINER FOR WORKSHOPS & TRUCKS

ECO-WORK® 36 litres are an emergency container for extremely safe and simple collection and containment of waste engine oil. ECO-WORK® has been designed to facilitate maintenance activities for garage workshops and heavy vehicles and also for roadside emergencies. ECO-WORK® is equipped with a roller wheel and extended handle for safe and easy transport when full, thus safeguarding the user when manually handling. Colour coded in black designated for separate collection of used mineral oil, it also has a handle for ease of lifting and is stackable* to make the most of available space. Extremely versatile, the container allows either on site oil extraction or easy transportation to a collection centre. Storage and transport is safe thanks to a special channel that allows ECO-worx® to be secured by a loading strap belt to avoid prevent tipping. *Stackable up to maximum 4 full containers with a total of 1.44 litres.

Options: Adhesive vinyls, imprinting area for customers' logo.

CONTAINER FOR SEPARATE COLLECTION OF WASTE MINERAL OIL

The OLIVIA® 200 collection station is a 'double skinned' bunded container designed for the collection of waste engine oil, which can be safely used at bulk collection points. To facilitate the collection of waste oil, the station has been equipped with a large funnel and a lid (NCP) to protect contents from the elements. Thanks to a special float level gauge, it is possible to monitor the amount of liquid contained, and, to further increase safety, the container comes with a flow reduction valve to prevent leakage in case the container is accidentally overturned. OLIVIA® 200 also features special side and roll-bar for safety, which enables anchorage to the ground, making OLIVIA® 200 secure and protecting it from strong winds, and accidental impacts that might otherwise tip the container.

Three versions are available:
OLIVIA, Code 02170/M - equipped with ground anchoring integral roll-bar.
OLIVIA NEW, Code 02171/M - equipped with bars for side protection and anchorage to the ground.
OLIVIA ISLAND cod. 02172/M - version without side and roll-bars for anchorage to the ground.

Options: Vinyl adhesives, Oil Only 200 Platform, 'Oil Plan' separate collection cloud management system.

CONTAINER FOR SEPARATE COLLECTION OF WASTE ENGINE OIL EQUIPPED WITH PALLET-FORK SHAPED BASE FOR FORK-LIFT OR PUMP TRUCK

The OLIVIA® 500 FREE collection station is a container ideal for the collection of waste engine oil, consisting of two containers, one inserted inside the other. Made of suitable oil and weather resistant HDPE, it is also equipped with a side and roll-bar for anchorage to the ground to resist strong wind, weather in general and accidental impacts that might otherwise tip the container. OLIVIA® 500 FREE is easy to transport and position as it has been designed and manufactured to facilitate its movement in case of need (frozen oil, ordinary or extraordinary maintenance), even when full. It has slots for ease of use with a standard fork-lift or pump truck. It is easy to inspect, it is washable and made from recyclable HDPE and has a lid cover with slam lock and coded key.

Three versions are available:
OLIVIA, Code 02512/M - equipped with ground anchoring integral roll-bar.
OLIVIA NEW, Code 02513/M - equipped with bars for side protection and anchorage to the ground.
OLIVIA ISLAND, Code 02514/M - version without side and roll-bars for anchorage to the ground.

Options: Vinyl adhesives, Oil Only 500 Platform, 'Oil Plan' separate collection cloud management system.

EMERGENCY FUEL CONTAINER

**SOS Fuel 6L and 10L** emergency containers are suitable for fuel and approved for the transport of dangerous liquids ONU RID ADR e IMDG. Both versions come with handy accessories for simple and convenient emptying into fuel tanks. SOS FUEL has an angled flex pipe accessory that screws onto the mouth of the container. Emptying is also facilitated by a convenient 90 degree rotating handle that allows you to keep a tight grip. SOS FUEL is also equipped with special underside channels for Velcro strips to prevent movement inside the trunk of a car, allowing easy and hassle-free transport when full. SOS Fuel 6L and 10L are convenient, practical, space-saving and perfectly stackable, therefore ideal for all motorists to guarantee them never run out of fuel.

Options: Vinyl labels, place for imprinting customer’s logo.

EMERGENCY FUEL CONTAINER

**SOS Fuel 1L** is the latest in emergency fuel containers. Designed especially for motorcyclists, it is a small 1 litre container with angled flex pipe that screws onto the mouth of it for filling a fuel tank. The compact size allows convenient saddlebag storage; SOS FUEL 1L has also a specially designed rounded shape and grooves for attachment to a motorbike frame with straps or clamps. SOS FUEL 1L is UN/ADR/RID/IMDG approved for road, rail and maritime transport.

Options: Vinyl labels, place for imprinting customer’s logo.
